

MOBILE PAYMENTS

TRANSNATIONAL™
PAYMENTS • TECHNOLOGY • TRUST

Making payment
technology simple
and effective for
your business

Merchants trust TransNational Payments to manage their payments in-store, online and anywhere their business takes them. We offer an industry-leading array of secure, innovative products and solutions that support the growth of our highly valued merchants and their businesses.

ACCEPT EMV CHIP CARD PAYMENTS ON-THE-GO

Our mobile payment solution enables merchants to quickly and securely accept EMV chip card payments from any smartphone or tablet. Accept credit card and cash payments, keep track of inventory and sales from anywhere — take your business with you.

EMV & PCI DSS Compliant

Whether you have already adopted EMV and want to go mobile or you need to migrate to EMV in the near future — we have you covered.

Cloud-Based Inventory Tracking & Management

Edit item details including: name, SKU, price, taxability and quantity. Add new items and sort your inventory for easy access. Get insight into your inventory wherever you are, with real-time updates on the status and quantity of each item.

Real-Time Reporting & Dashboard

View the full feed of transactions across the business or for specific users. See transaction-level detail including: transaction IDs, amount, date, signatures, SKU and more.

Customized Settings

Take advantage of text and email receipts or enable tip to present three default tip amounts to the customer. No internet access? No problem. Swiped or keyed payments can be stored and forwarded at a later time when in offline mode.

Supports iOS & Android

No need to worry about choosing a mobile operating system — we support both iOS and Android.
